

# Accessing Clinical Data

Prof Daniel Capurro  
COMP90089

# Accessing Clinical Data

Prof Daniel Capurro  
COMP90089

Research with human subjects always carries risks

Research with data about humans IS human subjects research

Research needs to be approved by an ethics committee (HREC)  
before accessing data

涉及人类受试者的研究总是存在风险

涉及人类数据的研究属于人类受试者研究

研究需经伦理委员会（HREC）批准  
在访问数据之前

# Overview

# 概述

# Risk classification (NHMRC)

Figure 1: Risk profiles of research

| Lower risk                                                                  |                                                                 | Higher risk<br>(Individual, group, community, societal or global) |                                                      |
|-----------------------------------------------------------------------------|-----------------------------------------------------------------|-------------------------------------------------------------------|------------------------------------------------------|
| Minimal                                                                     | Low                                                             | Greater than low                                                  | High                                                 |
| No risk of harm or discomfort; potential for minor burden or inconvenience* | No risk of harm; risk of discomfort<br>(+/- foreseeable burden) | Risk of harm<br>(+/- foreseeable burden)                          | Risk of significant harm<br>(+/- foreseeable burden) |

\* Burden and inconvenience are discussed below.

# 风险分级 (NHMRC)

Figure 1: Risk profiles of research

| Lower risk                                                                  |                                                                 | Higher risk<br>(Individual, group, community, societal or global) |                                                      |
|-----------------------------------------------------------------------------|-----------------------------------------------------------------|-------------------------------------------------------------------|------------------------------------------------------|
| Minimal                                                                     | Low                                                             | Greater than low                                                  | High                                                 |
| No risk of harm or discomfort; potential for minor burden or inconvenience* | No risk of harm; risk of discomfort<br>(+/- foreseeable burden) | Risk of harm<br>(+/- foreseeable burden)                          | Risk of significant harm<br>(+/- foreseeable burden) |

\* Burden and inconvenience are discussed below.

# Risk classification (NHMRC)

# 风险分类 (NHMRC)

- physical harm: including injury, illness, pain or death
- psychological harm: including feelings of worthlessness, distress, guilt, anger, fear or anxiety related, for example, to disclosure of sensitive information, an experience of re-traumatisation, or learning about a genetic possibility of developing an untreatable disease
- devaluation of personal worth: including being humiliated, manipulated or in other ways treated disrespectfully or unjustly
- cultural harm: including misunderstanding, misrepresenting or misappropriating cultural beliefs, customs or practices
- social harm: including damage to social networks or relationships with others; discrimination in access to benefits, services, employment or insurance; social stigmatisation; and unauthorised disclosure of personal information
- economic harm: including the imposition of direct or indirect costs on participants
- legal harm: including discovery and prosecution of criminal conduct.

- physical harm: including injury, illness, pain or death
- psychological harm: including feelings of worthlessness, distress, guilt, anger, fear or anxiety related, for example, to disclosure of sensitive information, an experience of re-traumatisation, or learning about a genetic possibility of developing an untreatable disease
- devaluation of personal worth: including being humiliated, manipulated or in other ways treated disrespectfully or unjustly
- cultural harm: including misunderstanding, misrepresenting or misappropriating cultural beliefs, customs or practices
- social harm: including damage to social networks or relationships with others; discrimination in access to benefits, services, employment or insurance; social stigmatisation; and unauthorised disclosure of personal information
- economic harm: including the imposition of direct or indirect costs on participants
- legal harm: including discovery and prosecution of criminal conduct.

“**Discomfort is considered less serious than harm.** It can involve physical or psychological impacts; for example, minor side effects of medication, discomfort related to non-invasive examinations or tests (such as measuring blood pressure), and mild anxiety associated with an interview. However, **where a person’s reactions might exceed discomfort and become distress, this should be viewed as potential for harm.**”

(bolded words are my own)

“**不适被认为比伤害轻微。**它可能涉及身体或心理影响；例如，药物的轻微副作用、与非侵入性检查或测试（如测量血压）相关的不适，以及与访谈相关的轻度焦虑。然而，**当一个人的反应可能超出不适并变为痛苦时，这应被视为潜在的伤害。**”

（加粗词语为本人所加）

**Risk not only for the participating individuals**

**风险不仅涉及参与的个人**
